# The Arctic

## Wonders Great and Small

*“The Arctic resists summary. It cannot be abridged. There is no single definition of it and no definitive boundary to contain it.”*

*Jennifer Kingsley, Ilulissat, Greenland.*

**I first went north to witness some of the earth's** grand gestures: the midnight sun, rolling tundra, and sea ice. The Arctic attracted me with its rugged terrain. I was enthralled by its extremes and privileged to watch polar bears, walrus, muskox, and narwhal. My love for the Arctic began 20 years ago, which is no time at all for a landscape that tells its stories in millennia; yet in 20 years a lot has changed. It's not possible to visit the north without confronting those changes—ecological, cultural, and political. But also personal.

The Arctic has changed me. It has trained me, year by year, to be more observant of the world and to find delight in its tiniest details.

This past summer, while leading a group in the Canadian Arctic, I was stopped in my tracks by two inches of grey fuzz roaming between patches of flowers. It was a Ross's tussock caterpillar, a marvellous creature that lives in harsh conditions for years before its metamorphosis. We stopped to watch the ripple of its tiny hairs as it clambered over a patch of lichen. We discussed its steady progress and sensed the wonder of its tiny life.

To love something—anything—means getting up close. While picking berries, talking with

community members, waiting for whales to surface, and seeing the sun skim along the horizon, the Arctic has given me that opportunity over and over again.

I will always be thrilled by the grandeur that beckoned me there in the first place, but over time I have discovered the blessing of searching for the small and of remembering how the world unfolds in its own sweet time.

The Arctic resists summary. It cannot be abridged. There is no single definition of it and no definitive boundary to contain it. Also, it is full of surprises, and we may be surprised by how it affects us.

We might go north for the polar bears and fall in love with how the light shimmers over the icebergs. Or maybe it's the precious ice that lures us, only to find ourselves enamoured with a fox, or a skein of eiders, or a walrus.

Some of us have been brought to our knees by the flowers; we've crouched low, waiting for a bee to land. Or we've stood on deck at night, freezing in our slippers, to catch one more whiff of the wind before we go to sleep.

The details are out there. It's our job to take them in.

# Choosing Your Arctic Adventure

*Stretching across the top of the globe and touching eight countries, the Arctic is rife with opportunity for every type of explorer, whether you seek iconic wildlife, epic icescapes, or enriching encounters with cultures of the far north. Lindblad Expeditions-National Geographic offers 19 itineraries in this remote part of the world, each providing a unique point of view on the region. Here are some highlights from the areas we explore to help you decide which Arctic expedition is the best fit for your interests.*

### Svalbard & Norway—Set Out on an Arctic Safari

With vast ice floes and snowy shorelines that are as wild as the Serengeti, Svalbard offers a unique opportunity for animal lovers. Watch for walruses and seals, hike the tundra in search of reindeer, and seek out the icon of the Arctic—the polar bear. On a detour through the Norwegian fjords, cruise and kayak beneath soaring cliffs and tumbling cascades. With its epic wildlife, stunning landscapes, and endless light from the midnight sun, Svalbard is also a dream destination for photographers.

**Best for: epic wildlife, iconic scenery, photography**

### Iceland & Isles—Adventures Amid the Living Earth

In Iceland—home to gushing geysers, sliding ice sheets, and vast, lunar-like lava fields—there are a multitude of ways to interact with the living Earth. Take a Zodiac cruise through a basalt cave, hike the base of a fjord to a thundering waterfall, or stroll sea cliffs aflutter with gannets and puffins. On these shorelines, as well as in the nearby Faroe Islands, explore the cultural threads that link the ancient Vikings to modern-day Arctic communities, and enjoy the Icelandic musicians who join us onboard bring local traditions to life.

**Best for: geology, birdlife, Viking history**

### Greenland—Encounter Epic Ice and Inuit Culture

The quintessential Arctic destination, Greenland's icescapes glitter in a dazzling tableau of iridescent icebergs and calving glaciers that we explore by kayak, Zodiac, and on foot. Go beyond the country's icy surface to experience cultural encounters in Inuit communities that thrive amid the extreme conditions at the top of the world. Depending on the time of year, there may also be the opportunity to watch the northern lights paint the night sky with their neon waves.

**Best for: big ice, High Arctic culture, northern lights**

### Canada—Trace the Legacy of Arctic Exploration

Canada plays host to one of the planet's most legendary expeditions: a journey along the fabled Northwest Passage. This voyage is for the explorer who seeks seldom-seen lands, as well as the mythic creatures that flock to their pristine waters and shores—polar bears, walruses, belugas, and maybe even elusive narwhals. Further south, along the rocky coasts of the maritime regions, we see a different side of Arctic exploration: traces of the peoples who settled these shorelines. Discover Viking villages, a Moravian mission, and other historical relics in a once-popular landing spot for westward voyagers.

**Best for: exploration history, rare wildlife, maritime culture**

---

**ALL IN:** *Activities and excursions are always included in the voyage price.*

# The Wildlife at the Top of the World

*The wildlife that inhabits the Arctic is as diverse and fascinating as the region itself. As summer unfolds, the landscapes begin to churn with life, drawing travelers here for the chance to witness these creatures in their natural icy realm. Because these species have far-reaching habitats, you will have the chance to spot many of them no matter your itinerary. From the sea to the sky to the frozen tundra, prepare for encounters of the wildest kind.*

## **Polar Bears**

**Seasonality: April–August**

With adult males weighing up to 1,200 pounds, polar bears are the Arctic's apex predators. Spotting a male hunting on the pack ice or a female with cubs playing in the endless summer sunlight are among nature's most special wildlife moments.

### Arctic Fox

**Seasonality: April–July**

Small and stealthy, Arctic foxes are omnivores who traverse the tundra in search of lemmings, fish, berries, and birds. Though known for their striking white coat, in summer their fur morphs into shades of brown that blend in with the landscape.

### Atlantic Puffins

**Seasonality: May–early August**

Iceland is home to more than half of the world’s population of these small, endearing birds that rub beaks with their mates. Puffins breed in summer along rocky coastlines where they tend to their chicks in underground burrows. Prepare for plenty of photo ops as these charismatic creatures fly to and from the sea.

### Narwhals

**Seasonality: May–October**

Narwhals have earned the moniker “unicorn of the sea” for their epic “horn” and their near-mythic status. Because they can dive deeper than a mile and spend time far out at sea, these toothed whales are especially elusive, which makes any sighting incredibly momentous.

### Arctic Terns

**Seasonality: June–October**

Marathon fliers, Arctic terns migrate approximately 91,000 miles annually from pole to pole in search of 24 hours of daylight. They arrive back to their Arctic breeding grounds still full of fight and energy which is needed to protect their colonies from arctic foxes, polar bears, or large gulls.

### Atlantic Walrus

**Seasonality: May–August**

These boisterous, giant pinnipeds can grow as large as 12 feet and weigh up to two tons. As social animals, walrus find comfort in large numbers, so they are often found in sizeable herds, stretched out on ice floes or gathered in impressive haul-outs on shore.

### Ringed Seals

**Seasonality: March–June**

Named for the little circles on their coats, ringed seals are the smallest and most common Arctic seal, as well as the favorite prey of polar bears. With claws on their front flippers, these pinnipeds can dig snow caves to birth pups and maintain breathing holes in the sea ice.

### Reindeer

**Seasonality: April–mid October**

Reindeer roam freely in the Arctic where they have people outnumbered. These hearty animals are uniquely adapted to year-round life on the tundra. They have two layers of fur, short, stocky bodies that reduce exposure to the cold, and the ability to warm the air they breathe in.

### Muskoxen

**Seasonality: June–September**

These herbivores have inhabited the Arctic tundra for many thousands of years. Weighing up to 800 pounds with horns and thick, shaggy coats, muskoxen appear intimidating, but they are still vulnerable to predation. Herds protect themselves from wolf attacks by gathering in circles with their young at the center.

# Northern Exposure

## Photography in the Arctic

**CAMILLE SEAMAN** believes in capturing images that articulate the connections between humans and nature—a mindset that took root while growing up in the Shinnecock Indian Nation. Now a National Geographic Photography Expert who joins guests on select Lindblad-National Geographic expeditions, Seaman has spent the past two decades documenting the rapidly changing icescapes of Antarctica and the Arctic. Her polar pursuits recently took her to Svalbard, where she sat down with us to share her perspectives on Arctic photography.

### **Describe your personal relationship with the Arctic.**

As an indigenous person, I was raised to know that we are interconnected and interrelated to everything. When I look at the ice, I understand that the ice and how it exists somehow relates to me. It has an effect. So to have the opportunity to really stand in front of it and feel that awe—that overwhelming sense of scale here—is really powerful.

### **What is your role as a National Geographic Photography Expert?**

As a photographer, I understand before I even raise my camera that my job is to inspire people. My job is to create greater empathy and compassion. When I raise my camera here, I know that I am becoming the messenger for this place.

### **What makes the Arctic a good photography backdrop?**

The thing that keeps me coming back to the polar regions over and over again is the unique quality of light that you can only find here. Because of where we are, we don't really get a sunset. There is this pseudo

sunrise and sunset light that can last for many hours. The colors it creates are quite extraordinary.

### **How does traveling by expedition ship facilitate your craft?**

The *National Geographic Resolution* has ruined me because it is so luxurious—so comfortable. But importantly, it's so quiet. I feel the silence of the ship as we approach wildlife. And the ship's ice class allows us to go places other ships wouldn't even dare. We felt that just yesterday when observed a polar bear. There were other ships nearby, and they couldn't even contemplate getting as close as we did.

### **How would you encourage travelers to approach photography on an expedition?**

I would encourage people to express themselves and to not worry about getting a checklist of images. Make a picture of a walrus, but show me the walrus in a way that means something to you. We want people to go home with images that are personal, so that when they show their friends and family, they're able to evoke some sense of what a place meant to them.

# Stay Immersed at Sea

Each ship in the Lindblad Expeditions-National Geographic fleet is a destination in its own right, featuring superior amenities and cultural experiences to ensure that your time onboard is equally rewarding as your time on shore. Every aspect of your experience aboard our fleet is an opportunity to connect with and celebrate the places you explore—from the Arctic-inspired art in our roving galleries to the performances by local musicians and the culinary delights and soothing spa treatments sourced from our polar surroundings.

## A Culinary Journey at Every Meal

Sampling local cuisine is a highlight of any voyage, and we take great care to bring the flavors of your destinations to every meal you enjoy on board. Our executive chefs designs unique and innovative menus that prominently feature sustainably sourced dishes from the regions you visit, as well as wine pairings and guided tastings to enhance your culinary experience. Special onshore culinary experiences, like a mussels tasting on Cape Breton and a visit to an Icelandic farm, invite guests to forge even deeper connections with local culinary traditions.

## Sounds of the Far North

Whether it's a soulful Icelandic folk song or a cheerful Newfoundland sea shanty, music offers a window into the identity of our northerly destinations. Ethnomusicologist Jacob Edgar curates musical experiences aboard our ships so that your time at sea is accompanied by melodies that are reminiscent of our ports of call. For select voyages, Jacob has assembled a line-up of performances—featuring local musicians whose songs bring the rich traditions of far northern communities to life.

*“By showing viewers the beauty of these remote places, I hope to inspire people to help preserve them.”* —Zaria Forman

## The Art of Expedition Travel

Our ship interiors tell the stories of the Arctic from a different angle—through the eyes of artists who find inspiration in the ice. Artist Zaria Forman curated the first-ever ship-based exhibitions of visual and auditory works, created to express the fragile beauty of the polar regions. Stroll the corridors and shared spaces of *National Geographic Endurance* or *National Geographic Resolution* on a guided walk to explore how the evocative paintings, photographs, soundscapes, and other artworks reflect your Arctic surroundings. *To learn more, visit [expeditions.com/art](https://expeditions.com/art)*

## Indulge in Our Wellness Program

Greet the day with a sunrise yoga session or unwind in the spa with a massage, serenaded by the sound of soothing waves. Our dedicated wellness spaces—including treatment rooms, saunas, fitness centers, and more—encourage travelers to tap into the natural rhythms of their surroundings. Treatments are tailored to your individual needs, and each of our fully accredited wellness specialists is also a licensed massage therapist.

## State-of-the-Art Polar Ships

## *National Geographic Endurance & National Geographic Resolution*

**CAPACITY:** 128 guests in 71 outside cabins.

**REGISTRY:** Bahamas. **OVERALL LENGTH:** 406 feet.

*National Geographic Endurance* and *National Geographic Resolution* are next-generation expedition ships, purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.

**PUBLIC AREAS:** Observation lounge with bar, three dining areas, gym, wellness area, infinity-style outdoor hot tubs, library, main lounge with full service bar, 24-hour beverage, state-of-the-art facilities for films, slideshows and presentations, and a photo workshop area; plus, an expedition base with lockers for expedition gear, and an “open Bridge” for access to our captain, officers and the art of navigation.

**MEALS:** Two restaurants, featuring local, sustainable choices and unassigned seating for flexible, inclusive dining; plus a Chef’s table for intimate, small group dining. Main restaurant has 270° views, and the Observation deck restaurant features lighter, made-to-order fare.

**CABINS:** All cabins face outside with large windows, private facilities and climate controls. 53 cabins have balconies. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers.

**EXPEDITION EQUIPMENT:** Zodiacs, kayaks, snowshoes, cross-country skis, Remotely Operated Vehicle (ROV) and underwater video camera for unique access to polar marine world, hydrophone, aerial remote-controlled camera, video microscope, and OM System Photo Gear Locker.

**SPECIAL FEATURES:** A full-time doctor, undersea specialist, National Geographic photography expert, Lindblad Expeditions-National Geographic certified photo instructor, an internet cafe and laundry.

**WELLNESS:** The vessel is staffed by our wellness specialists and features a glass-enclosed yoga studio, gym, treatment rooms and spa relax area, and high and low-heat saunas with ocean views.

*From top: spacious bathroom; library with a view.*

## *National Geographic Explorer*

**CAPACITY:** 148 guests in 81 outside cabins.

**REGISTRY:** Bahamas. **OVERALL LENGTH:** 367 feet.

*National Geographic Explorer* is a state-of-the-art expedition ship. It is a fully stabilized, ice-class vessel, with an ice-reinforced hull, enabling it to navigate polar passages while providing exceptional comfort. It carries kayaks and a fleet of Zodiacs. An undersea specialist operates a remotely operated vehicle (ROV) and sophisticated video equipment, extending access to the underwater world.

**PUBLIC AREAS:** Bistro bar; chart room; restaurant; global gallery; library; lounge with full service bar and state-of-the-art facilities for films, slideshows and presentations; mudroom with lockers for expedition gear, and observation lounge. Our “open Bridge” provides guests an opportunity to meet our officers and captain and learn about navigation.

**MEALS:** Served in single seatings with unassigned tables for an informal atmosphere and easy mingling. Menu is international with local flair.

**CABINS:** All cabins face outside with windows or portholes, private facilities and climate controls. Some cabins have balconies. Cabins are equipped with Ethernet and Wi-Fi connections and USB ports for mobile devices.

**EXPEDITION EQUIPMENT:** Zodiacs, kayaks, Remotely Operated Vehicle (ROV), hydrophone, splash-cam, underwater video camera, aerial remote controlled camera, video microscope, and OM System Photo Gear Locker.

**SPECIAL FEATURES:** A full-time doctor, undersea specialist, National Geographic photography expert, Lindblad Expeditions-National Geographic certified photo instructor, internet café and laundry.

**WELLNESS:** The vessel is staffed by a wellness specialist and features a glass-enclosed fitness center, outdoor stretching area, a LEXspa treatment room and sauna.

*From top: the dining room has unassigned seating and an informal atmosphere; glass-enclosed fitness center with 180 degree views.*

# New! Arctic Parka and Jacket

We are excited to share our new parka and jacket designs for our Arctic and sub-Arctic expeditions. Based on our coveted Antarctica parka, we designed a vintage look and feel with contemporary tech details for maximum polar functionality and comfort. Our jacket, for the balmier climes, is a wind

and waterproof shell that is super sleek. Information about which option is available to you can be found in your online documents portal along with sizing.

## Self-Disinfecting Ships

Lindblad Expeditions became the first self-disinfecting fleet with the rollout of the ACT CleanCoat™ system in 2019. This photocatalytic cleaning process activates when illuminated, continuously breaking down unwanted microbes such as

bacteria, viruses, mold, and airborne allergens. The positive environmental impacts of this non-toxic, chemical-free system are many: less plastic in the supply chain and waste stream, and more than one million gallons of water saved annually. The system lowers our carbon footprint and creates a cleaner, healthier shipboard environment for guests and crew alike. personal nature—internet usage, wellness treatments, and other specialized arrangements.

## RESERVATION INFORMATION

**Terms & Conditions:** For complete terms and conditions please visit [expeditions.com/terms](https://expeditions.com/terms)

**Pricing:** For best pricing book early. Prices quoted in this brochure are in USD, per person based on double occupancy, valid as of the time of printing, subject to modification based on select departures and availability at time of booking, and are not guaranteed until booking and required deposit is made. Visit [expeditions.com](https://expeditions.com) or call for all pricing.

**Pricing Includes:** All accommodations aboard ship or in hotels per itinerary or similar; all meals, alcoholic beverages aboard ship (except certain super-premium brands); and nonalcoholic beverages aboard ship; meals on land as indicated, accompanied by nonalcoholic beverages; air transportation where indicated as included; shore excursions; sightseeing and entrance fees; special access permits; transfers to and from group flights; kayaks, tips (to ship's crew); taxes and service charges; services of a ship physician and services of our expedition staff. Unused services or items included in our programs are non-refundable.

**Not Included:** Air transportation (except where specified as included); charter airfare (where applicable) extensions; passport; visa; immigration fees; meals not indicated; travel protection plan; and items of a personal nature, such as internet access and laundry.

**Airfare:** For all programs, airfare is an additional cost unless otherwise indicated. We will gladly assist in making your air arrangements for a \$50 per person service fee.

**Reservations, Deposits, and Final Payments:** To reserve your place, an advance payment deposit is required at the time of reservation. Receipt of advance payment deposit indicates your acceptance of the terms and conditions. Final payment schedule can be found online. Visit [expeditions.com/terms](https://expeditions.com/terms) for complete details about deposits and final payment schedules which may vary by ship.

**Travel Protection Plan:** We strongly recommend that you take advantage of our Travel Protection Plan. This plan offers comprehensive coverage to protect you from cancellation fees, costs incurred due to trip delays/interruption, medical assistance, and damaged or lost baggage, and provides medical assistance and evacuation during your travels. Our Travel Protection Plan is available for U.S. residents only and may be purchased any time prior to final payment due date. If you are not satisfied for any reason, you may return your plan within 10 days after purchase. Your premium will be refunded if canceled within 10 days, provided you have not already departed on the trip or filed a claim. When so returned, the coverage under the plan is void from the original date of purchase.

**Responsibility and Other Terms & Conditions:** Certain provisions concerning, among other things, limitations of Lindblad Expeditions' and National Geographic Expeditions' (a division of National Geographic Partners, LLC) liability for loss of property, injury, illness, or death during the voyage will be provided to all guests on the ship's ticket sent prior to departure, and are also available on our website at [expeditions.com/terms](https://expeditions.com/terms), or upon request. By registering for a trip, the guest agrees to all such terms and conditions.

**Cancellation Policy:** Call for details or visit [expeditions.com/cancellation-policy](https://expeditions.com/cancellation-policy)

**Note:** Itineraries and prices listed in this brochure are as of publication date and are subject to change.

**New Expedition Dates, Same Exceptional Experiences:** Beginning in 2024, Day 1 of our itineraries will no longer reflect "departure from the U.S." and will reflect "arrival to the city" where your expedition begins. The actual durations of expeditions will remain unchanged. Visit [expeditions.com/newdates](https://expeditions.com/newdates) for details.
